

THE CHRONICLE

VOL. XIV. No. 28.

CROSSFIELD, ALBERTA, THURSDAY, AUG. 11th, 1921.

PRICE \$1.50 A YEAR.

WM. LAUT

REPAIR TIME

Repairs for "Haying" and "Harvesting" Machinery should be looked after now.

Our stock is complete for both the International, and John Deere

lines, and it will pay you to get your extras before some lines are depleted.

SECTIONS, GUARDS, LEDGER PLATES, must all be in good shape this year to cut the short grass - you will waste time and horse flesh trying to use old ones.

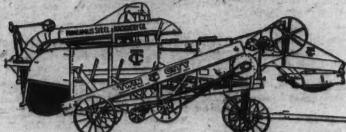

Our stocks are larger, our service is better, our prices are a little lower and our

TERMS are CASH
on Repairs this year.

The Menace of Bolshevism

During recent months, reference in the press of Canada to the activities of the radical socialist Bolshevist and Communist movements have not been as frequent as was the case a year or so ago, but this does not mean that the menace to our free British institutions has passed. Notwithstanding the anxieties and arduous duties at present imposed on the statesmen of Great Britain because of the troubles in Ireland, the complex problem of world disarmament, and the gigantic financial difficulties to be overcome following the war, leaders in government in the Old Country are not overlooking the danger that still threatens from the Bolshevik propaganda.

A committee of the House of Lords, under the chairmanship of the Duke of Northumberland, spent several months of investigation and research into the activities of these revolutionary organizations and in a report recently issued it is stated that there is overwhelming evidence that an International conspiracy exists which aims at the destruction of all existing institutions of government and society, of all religion, of all moral laws, and all property rights, throughout Great Britain, Canada and other Overseas Dominions.

This report sets forth that the main points in the Revolutionary programme are:

(1) The national power of Great Britain and other Allied States is to be broken down by the fomenting of internal revolutions, through appeals to class hatred, and by efforts to obtain greater freedom and privileges for one class of people. Governments which are strong are to be weakened by the introduction of Socialism, which will pave the way to anarchy.

(2) Internationalism is to be taught.

(3) In every possible way influence is to be secured over public officials.

(4) As religion is the oral mainstay of all government, it is to be destroyed.

(5) Property owning is to be rendered impossible—by means of a thousand laws; restrictions and taxes, thus bringing about some form of State Socialism, or Communism, or Anarchy.

The Communist Party, directed and subsidized from Moscow, exerts its power through magazines, and printed matter, inculcating ideas of Red Revolution into the minds of the people, and by a process known as "boring from within." Communist schools have been established for perverting the young by the teaching of Communism and Atheism. In this connection it is important to note that there are over twenty weekly newspapers in Canada teaching and preaching Socialism and Communism, many of them of the most radical kind.

Despite all his many other duties and responsibilities, David Lloyd George, who is a radical of the sane and progressive type, felt impelled recently to sound a word of warning as to the danger that confronts British institutions from this subtle enemy. The British Prime Minister is reported as saying:

"The military danger is over, but there are greater, more insidious, more permanent dangers still remaining—the dangers that have arisen from the new conditions in this and every land, the new ideas that have arisen, the new organizations that have suddenly risen into great powers. What is the peril? It is the phenomenal rise to power of a new party, with new purposes of the most subversive character. It calls itself Labor, but it is really Socialist."

"If, anyone doubts the reality of the danger, I would ask him to read the Socialist and Labor papers. We rarely see them, and we do not fully see what they are after, but what they write in these papers is repeated hundreds and thousands of platforms, to hundreds and thousands and millions of people. And they are beginning to believe it. Socialism is fighting, and you will find it in these papers—to destroy everything that great prophets and leaders labored for generations to build up. Private enterprise, individual effort, the stimulus of reasonable gain, the present organization of commerce, of industry, of credits—all that goes if this new system which is being preached, succeeds. Even the political liberty, which they build up is being threatened."

The old and tried Labor organizations of Canada and the United States are aware of the danger which threatens and are out combatting it. The business communities are becoming more, and more aware of it. It is true the average man who loves the little home he has built up by patient effort and self-denial, the man with his quarter or half section of land, the men and women who know that in the public school and the church are to be found the real safeguards and guarantees of personal liberty and real political freedom, should bestir themselves and vigorously oppose this enemy to all that is dearest and best in life.

Have you noticed
how many of your neighbors
have changed from tea or
coffee to

INSTANT POSTUM

The smooth, rich flavor of this cereal beverage appeals to the taste, and it is free from any element of harm. Better nights and brighter mornings usually result from Postum in place of tea or coffee.

"There's a Reason"

Knew His Name

The Poet Whittier's Dog Was An Intelligent Animal.

During the last birthday celebrations of the poet Whittier, his house was visited by a celebrated oratorio singer. The lady was asked to sing, and, seating herself at the piano, she began the beautiful ballad, "Robin Adair." She had hardly begun when Mr. Whittier's pet dog came into the room and, seating himself by her side, watched her as if fascinated, and listened with a delight unusual for an animal. When she finished he came and put his paw very gravely into her hand and licked her cheek. "Robin takes that as a tribute to himself," said Mr. Whittier. "He also is a Robin Adair." The dog, hearing this, evidently considered that he was the hero of the hour. From that moment, during the lady's visit, he was her devoted attendant. He kept by her side when she was indoors, and accompanied her when she went to walk. When she went away, he carried her satchel in his mouth to the gate, and watched her departure with every evidence of distress.—St. Nicholas.

PAINFUL DIARRHOEA

CRAMPS IN STOMACH

Mr. Fred Funston, Craik, Sask., writes:—"A year ago last harvest I was taken with a sudden attack of diarrhoea, which lasted for a week, and in a few hours I had to give up work. The cramps in my stomach were dreadful, the beads of perspiration would stand out on my face as I lay in bed, and I could not sleep. I had a chance to send to town for a couple of bottles of Dr. Fowler's Extract and Wild Strawberry. I had a good night's sleep, and last I got a chance to go to town for the better, for which I was very thankful. I don't know what the cause of my trouble was except the extremely hot weather, and the active work of stockholding the wheat."

Several of my neighbors were taken in the same way, and had the disease removed by Dr. Fowler's Extract, any great relief until I advised them to use "Dr. Fowler's" when they soon experienced a great change. Dr. Fowler's Extract and Wild Strawberry has been on the market for the past 76 years and many cheap imitations are being offered to the public.

Be sure and get the genuine put up only by The T. Miltub Co., Limited, Toronto, Ont. Price, 50¢, bottle.

The Chinese are ahead of the world in the preparation of roast pork for the table. After it has come out of the oven, it is hung in smoke of various aromatic herbs, which gives it a delicious flavor and ribs of it, some palates,

SUMMER HEAT

HARD ON BABY

No season of the year is so dangerous to the life of little ones as the summer. The excessive heat throws the system out of balance so quickly that unless prompt aid is at hand the baby may be beyond all human help before the mother realizes what has happened.

Summer is the season when diarrhoea, cholera, malarial fever, rheumatism and colic are most prevalent.

Any one of these troubles may prove deadly if not properly treated. During the summer months, the best friend is Baby's Own Tablets. They regulate the bowels, sweeten the stomach and keep baby healthy. The tablets are sold by the box or bag, or mail at 25 cents a box from The Dr. Williams' Medicine Co., Brooklyn, Ont.

A Successful Family

He was a successful artist, and although a very gifted man, the world had not yet recognized what a man they had amongst them.

Still, success was coming his way little by little, and he was proudly telling his life story to a patron.

"A few years ago," he asserted, "I was quite unknown, but now my work is hung on the line."

Then a bitter thought fluttered through his brain, and he added:

"So is my wife's"—London Answers.

Drink Water When Tired.

Dr. E. A. Mosher urged lately the members of the Women's Medical Society of New York, to drink a glass of water at 10 a.m. and others at 3, 4 and 5 p.m. This, said told them, would dilute the products of fatigue which were entering the blood and causing the tired feeling.

Saskatchewan Grain

Man Found Operation Was Not Necessary

"I was doubtful about Tanlac until I tried it myself and now I know it does everything that is claimed for it," said Jacob Popp, well-known and prosperous grain grower of McNeely, Sask.

"I had a bad form of stomach trouble for sixteen years, which was steadily growing worse as time passed. I did not care to eat heavy food or pastry and at times I could not even eat a thing on my stomach, not even a glass of water. I would bloat up with gas until my heart would beat like a trip-hammer and I used to have fits of pain in my chest as well as in the pit of my stomach. My liver was all out of order and I was bothered a

good deal with headaches. I was in such a bad fix I could scarcely sleep at night or work during the day. In fact, I spent two weeks in the hospital and thought an operation was going to be necessary. Luckily, the operation was deferred and as soon as I left the hospital I began taking Tanlac.

"I can hardly realize that so little medicine could do as much good as Tanlac has for me. Although I took only three bottles, I gained twenty-eight pounds in weight and am eating again, sleeping and working better than I have in many years. Tanlac is truly a remarkable medicine."

Tanlac is sold by leading druggists everywhere.

The Keeping Of Poultry

Pamphlet Tells How Poultry Can Be Made To Pay.

If resident in either town or country and you wish to know how best to keep poultry and secure the most satisfactory results, consult a pamphlet, the title of the subject prepared by the Dominion Poultry Husbandman, F. C. Ellford, and recently issued by the Department of Agriculture at Ottawa. The pamphlet can be had free on application to the Publications Branch. It tells of how poultry can be made to pay, how the birds should be housed and fed, how they should be treated in winter and summer, how to commence keeping hens, and, above all, the equipment that is desired, how to choose a breed, how to hatch and rear, and how to gather, keep, or market the eggs. In short all the essentials to success in poultry keeping for home consumption or selling are clearly and explicitly explained. In the term poultry are included turkeys, geese, ducks, guinea fowls and pigeons, the raising and care of which are fully discussed. Numerous illustrations of types of birds, and of methods of housing and feeding contribute to make the pamphlet an invaluable compendium on poultry keeping and marketing.

Unfit To Live—Must Die

This winter we rendered a thousand times every week to the dead to live, it must pass out, drop off, if Putum Extract is applied to corns, and warts. Use the old reliable "Putum" it never fails, 25¢ at all dealers.

The "highbrow" girl was talking "Think of it," she said. "Imagine those Spanish pirates going 3,000 miles on a galleon!"

"Yes, dear," said the profiteers wife, "but you can't believe all you hear about those foreign cars!"—London Bits.

Screening the plants from certain effects of sunlight, an English botanist has produced purple nasturtiums, a color heretofore unknown.

Minard's Liniment for Burns, etc.

Salmon skin—is about the best waterproof material that can be worn. The Eskimos use it for both shoes and shirts.

COLD IN THE HEAD

is an acute attack of Nasal Catarrh. Those subject to frequent "colds in the head" will find relief by taking CATTARRH MEDICINE will build up the system and render them less liable to colds. It is a safe, reliable and safe medicine.

CATTARRH MEDICINE is taken internally and acts through the blood on the mucous surfaces of the System, thus restoring the natural balance and assisting Nature in restoring normal conditions.

Dr. J. C. Clegg & Co., Toledo, Ohio.

Lapis lazuli was the only stone of any intrinsic value known to the Egyptians under the Pharaohs.

For Burns and Scalds—Dr. Thomas' Electric Oil will take the fire out of a burn or scald. It should be applied in a small quantity at a time. There is no preparation required. The oil to the burn or scald will subside and in a short time cease altogether.

A town cannot grow without business. By helping your local dealer you assist the community.

Minard's Liniment for Dandruff

Still Walking

Edward Payson Weston Once Walked 500 Miles In Six Days.

Edward Payson Weston, the pedestrian who was famous a generation ago for his wonderful walking feats, is still able and hearty at the age of eighty-eight years, so a newspaper paragraph states. Every day he walks three miles daily for his health, and several times a week takes a twelve-mile walk in the neighborhood of his home, Plutarch, Ulster county, New York, just to keep himself in condition. Weston once walked 500 miles in six days, and 5,000 miles in 100 days—Outlook.

A Cure for Asthma. Give Asthma half a change and it gains ground rapidly. But give it the right treatment's of Dr. J. D. Kellogg's Asthma Remedy and it will fall back. There is no half way measure about this. Get a good right to work and gives prompt relief. It removes the almost breathing passages and leaves no place for the trouble to lurk. Have it by you for use.

A London policeman is not permitted to marry without the approval of his superior.

Minard's Liniment Relieves Neuralgia

Japan and Newfoundland are the only countries that have put flowers upon their postage stamps. Japan uses the chrysanthemum in the centre of all their stamps and Newfoundland introduces a bouquet of thistle blossoms.

Divergence In Viewpoints Between France and Britain Over Question Of Silesia

London.—The French Government deems it impossible to decide on the holding of a meeting of the Allied Supreme Council until the question of sending reinforcements into Upper Silesia has been decided.

Mr. de St. Aulaire, the French ambassador here, called on Lord Curzon, the British foreign minister, and conveyed his information in the name of his Government. The French notification is regarded here to indicate a serious divergence in the viewpoints of the two countries. It is stated Lord Curzon merely took the note of M. de St. Aulaire's communication and informed him he would refer the matter to the British cabinet.

When France agreed to a meeting of the Supreme Council in Paris on Aug. 4, it was more or less understood French acquiescence depended either on the question of reinforcements being previously settled or upon its being made the first subject of the agenda of the Council. The communication of M. de St. Aulaire would appear to show that the British Government declines to yield on this point.

U. S. Reduces Army To 150,000 Men

Congress Refused Funds to Pay Greater Force.

Washington.—Reduction of the United States army to a peace-time strength of one hundred and fifty thousand men has been accomplished in accordance with the decision of Congress when it refused to appropriate funds for pay and allowances for after October 1. With the reduction Sterns' Weeks announces there would be a general redistribution of troops, practical abandonment of seven of the great war-time army cantonments; placement of many organizations on the inactive list, and skeletonization of others into materially reduced strength.

Circassians Kill Turkish Governor

As a Result British Are Reinforcing Dardanelles Garrison.

Constantinople.—Circassian bandits appeared in Karabogha, on the Sea of Marmora, 35 miles east of Gallipoli, raided the town and killed the Turkish governor and commandant of the gendarmerie. A British detachment assisted the Turks in pursuing the bandits. As a result of this incident the British are reinforcing the Dardanelles garrison.

Britain Cancels Government Bonus.
London.—The chancellor of the exchequer announced that after September 30 no bonus will be paid to government employees in receipt of salaries over £2,000 a year. He also stated that there would be reduction of 5 per cent on salaries above £500. He said that £500,000 will be saved by these economies.

Will Pay Loan Without Borrowing.
Ottawa.—Sir Henry Drayton, minister of finance, announced that the £15,000,000 due in New York on August 1 would be paid without any further government borrowing.

Turks Are Badly Defeated

Athens.—Information from all sources indicates that the resistance of the Turkish nationalists in Asia Minor is completely broken down. The Greek official news agency declares in a statement. The Turkish losses in killed, wounded and prisoners to date are estimated at 60,000. The Greeks, the statement says, are constantly pressing the Kemalists along the road to Ankara. Along the route of their retreat the Turks set fire to stores of material which they were unable to take with them because of the rapidity of their flight.

Terrible Experience Of Mountain Climbers

Mrs. Stone Is Rescued After Undergoing Incredible Hardships

Calgary.—The search party which discovered Mrs. Stone has forwarded meagre details of the accident to the Alpine Club in Banff.

Mrs. Stone, who is not much the worse for her terrible experience, reports that she and Dr. Stone were climbing Mount Eon and Dr. Stone in attempting to make a short cut started up Rock Chimney with Mrs. Stone following him. They were not roped together. About half way up the rock on which he was standing gave way, and he plunged over her head to his death on the cliff below.

Mrs. Stone attempted to go down to her husband and became marooned on a narrow ledge of rock about half way down, from which she was unable to move. She remained there for five days without food. The only water she had was from a small stream which trickled down the mountain side at noon when the snows above melted. When discovered Sunday night by a searching party she was in a weakened and exhausted condition but uninjured. A. O. Wheeler, president of the Alpine Club, went up to the camp on Marshall Creek, accompanied by a nurse from Banff.

Quebec Crop is Fifty Per Cent. Less

Farmers Optimistic Although Drought Damaged Hay and Cereals.

Quebec.—"I still believe there is a decrease of at least 50 per cent. in the crop of this year," stated Hon. J. E. Carton, minister of agriculture, just returned from an automobile trip on the southern shore where he personally inspected the crop. "Not only hay but cereals are greatly damaged by drought. The potatoes look well and vegetables should be an average crop. I found the farmers were optimistically taking means to meet the situation," Mr. Carton added. "Due to our advice, farmers will keep their dairy cattle and will use all the fodder available but it is hoped that the Federal Government will consent to grant a reduction in the freight rates to meet the requirements as the department of agriculture has received offers from the western provinces to send hay here if needed at a reasonable price."

WESTERN EDITORS

L. D. Nesbitt, Publisher of the Mail, Bassano, Alta.

Rainmaker Has Scored

Hatfield Wins Rain Bet With Medicinal Hat District.

Medicine Hat.—Rainmaker Charles M. Hatfield has won his bet with the Medicine Hat United Agricultural Association and he will be paid \$8,000 for rain which has fallen in the district during the past three months.

Hatfield was to receive \$8,000 if four inches of rain fell between May 1 and July 1. Up to Saturday last four and one quarter inches had been recorded and so Hatfield draws the maximum payment, which will be paid him at the end of the month.

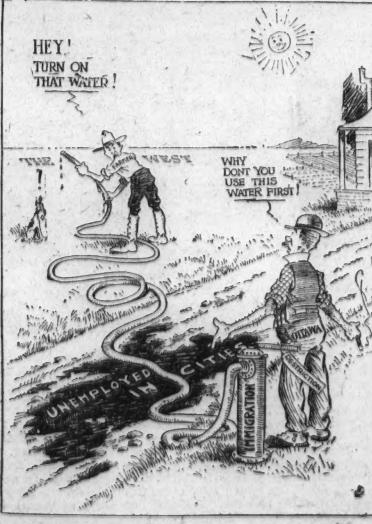

The association will hold a meeting to determine whether or not the contract shall be renewed for another year.

Despite the outcome of the unusual contract which was made with the rainmaker, all are not convinced that Hatfield is entitled to take responsibility for the precipitation. It is pointed out that the rainfall did not come at the time it was needed, and further that whenever the rain did come, it was general throughout the west.

Bibles are absolutely prohibited in Russia.

Wheat Field To Table In Few Hours

Ingersoll, Ont.—A record in which the harvester, the miller and the baker figured, was established a few days ago at Thamesford, Ont. On Thursday, at 3 o'clock, wheat was standing in the field. Later in the day it was threshed, drawn to the gristmill at Thamesford and ground into flour. On Friday morning biscuits of excellent quality were made and placed on the table for dinner.

The West! Yes, But Water in a Puddle Isn't Water on the Land.

A Preliminary Estimate Is Now Supplied Of World's Crop Production

Turk Nationalists Asking For Peace

Resistance In Asia Minor Said To Be Broken

London.—Mustapha Kemal Pasha, head of the Turkish National Government, has sent a telegram to Constantinople asking that the Central Government intervene with the Allies in an effort to obtain a cessation of Greco-Turkish hostilities, according to a despatch from Constantinople to the Exchange Telegraph Company.

Auto Accident

Wipes Out Family

Autocars Misled By Car Being On Wrong Track.

Cleveland.—Five persons were killed, four of them almost instantly, when a car on the Abbey Avenue viaduct and an automobile crashed head on. One family was wiped out when John M. Franey, 40, a garage owner, his wife, 37, and their two children, were killed. Each of the dead sustained a fractured skull.

The cause of the accident according to the police, was the operation of a shuttle car on the westbound side of the eastbound track being under repair. The motorist was westbound and when they saw the street car on the westbound track, they apparently thought it was traveling in the same direction as their automobile.

Courts Intervene In Military Execution

Say Sinn Feiners Should Have Been Tried By Court Martial.

Dublin.—An important judgment was delivered in the chancery division when the master of the rolls ordered a writ of habeas corpus, returnable against General Sir Neville Macready, commander of the British troops in Ireland; Maj.-Gen. Sir Edward Strickland, divisional commander, and others, in the case of John Egan, sentenced to death by a military court at Limerick in June for having ammunition in his possession.

In a long judgment the master of the rolls, decided that Egan should have been tried by court martial under the Restoration of Order Act. The claim of the military authorities that the existence of the state of insurrection justified them in overriding legislation seemed to him to call for a new bill of rights. There were considerations more important than the temporary duration of an insurrection. Among these were the eternal principles of justice, which could not be violated save with detriment to the interest and feeling of a civilized community.

Says Father Was Swindler

Daughter of Bank President Admits Knowledge of Alleged Theft.

Chicago.—Vivian Spurgin, daughter of Warren F. Spurgin, missing president of the closed Michigan Avenue Trust Company, who, with her mother, returned to Chicago from Detroit, where they fled following Spurgin's disappearance, has admitted that she had knowledge that her father had taken more than \$500,000 of the bank's money before he fled, it was announced by James E. McShane, assistant state attorney.

To Help Unemployed.

Toronto.—The board of control has passed a resolution moved by Mayor Church, that in view of the large amount of unemployment in the city instructions be given to the heads of departments to remove from the pay rolls those who are occupying dual positions or those occupying positions in the city's employ and receiving a pension at the same time.

Patronize your local merchant and thereby help to build up your home town and community.

Ottawa.—A cablegram received from the International Institute of Agriculture gives the following preliminary estimates of crop production for 1921, corresponding figures for last year being given in parentheses:

Wheat—Spain, 143,140,000 bushels (138,606,000); Hungary, 41,887,000 bushels (29,139,000). The total production of these two countries and including Belgium, Bulgaria, Finland, Alsace-Lorraine, Greece, Canada (243,720,000), United States, India, Japan, Algeria, Morocco, and Tunis, is 1,712,000,000 bushels but bushels. This year's total production is 876,000,000, or 20 per cent. of the two previous years.

Rye—Spain, 27,254,000 bushels (27,831,000); Hungary, 18,938,000 bushels (16,520,000). The total of these two countries and including Bulgaria, Belgium, Finland, Alsace-Lorraine, Greece, Canada (330,790,000), United States, Algeria and Tunis, is 552,349,000 bushels (531,38,000).

Barley—Spain, 92,180,000 bushels (90,463,000); Japan, 89,287,000 bushels (92,140,000). The total production of barley for the same countries as wheat, but excluding Hungary and India, is 1,828,000,000 bushels (2,142,000).

The grand total for wheat, rye, barley and oats, taken together, is 4,255,000,000 bushels compared with 4,568,000,000,000 last year, a decrease of 313,000,000,000.

Toronto Landlords Have New Graft

Charge \$2.00 For Privilege of Viewing Prospective Homes.

Toronto.—That some landlords are asking prospective tenants the price of \$2 for the privilege of looking at houses and apartments prior to renting them, is the complaint contained in a letter received by a local newspaper. A few days ago a man in the west end of the city asked a real estate agent whether he could take a look at a certain apartment. He was asked \$2 admission fee.

"Will I get my money in case I do not take the place?" he asked.

"No," was the answer.

"But in case I like the looks of the apartment can I deduct \$2 from the first month's rent?" he said.

"I charge you the \$2 to look at the place," said the agent. "It has nothing to do with the rent."

The indignant correspondent asks, "What will be the next ingenuity of profiteering he?"

Harvesters From B. C.

First Contingent Will Not Leave Until August 13.

Vancouver.—British Columbia will send every able-bodied man who wants to go to the prairie harvest fields this year. It is expected that a great number will take advantage of the reduced rates.

The provincial employment bureau, however, announces that none will be earlier than August 13, on which date the first contingent will go forward on the regular eastbound trains from Vancouver, and daily thereafter until requirements are filled.

Russia Fire On German Boats.

Berlin.—The German mine sweeping fleet which has been operating in the Kola Bight on the Northern Russian coast, is reported in a special despatch from Vardoe, Norway, to have been fired on by Russian land forces. The German fleet returned the fire but no damage was done on either side.

U.S. Parcel Post System Loss.

Washington.—The parcel post system now is being conducted at an annual loss to the government of approximately \$50,000,000 a year. Congressman Stevenson, chairman of the house committee on post offices and post rates, states.

History Of Navigation Of Hudson Bay Waters For Over Two Centuries

For two hundred and twenty-two years, sailing ships bore cargoes to the Bay, but in 1892 the first steam-propelled vessel took in the York Factory supplies. This was the "Erik" formerly a noted whaler in the Greenland seas. This vessel and her sister ships the "Hope" and the "Windward" were owned by the Greys of Peterhead, Scotland, a name that was a household word in the whaling industry for generations.

Captain Alex Grey, one of the three brothers, was in command of the "Erik" on this first voyage for the H.B.C. The "Erik" was a fine ship and, like all vessels in the Polar trade, massive in her construction. Though steam propelled, she carried sails, and was a fine sailing ship.

The sailing ship continued operating to James Bay until 1906 when the "Discovery," Captain Scott's ship of Antarctic fame, came into the possession of the company, and sailed for Charlton Island, James Bay, under Captain Grey.

From 1751, when the "Sea Horse" (Captain John Fowler) cast anchor in the Moose roads up to 1905, when the "Stork" commanded by Captain Norman Freakley, arrived at Charlton Island, Moose Factory had its annual sailing ship. Such a record must be unique in the annals of shipping and surely bears testimony to the character and quality of the officers and crews. They were no fair-weather sailors.

It is worthy of note, too, that during the long and protracted wars of the latter part of the 18th and early 19th centuries, when peacetime was considered the sport of the day, the H.B.C. ships arrived with unfailing regularity at the Bay ports. No doubt this was due to the activity and vigilance of Nelson's frigates.

When the battle of Trafalgar was fought on October 21st, 1805, the "Prince of Wales" (Captain Hanwell) was nearing England, or perhaps had just arrived for she had sailed from Moose Factory on September 14th of that year.

In 1815, the year of the battle of Waterloo, two H.B.C. ships, the "Eddystone" (Captain John Turner) and the "Hallow" (Captain John Davidson) were sent out to Moose Factory. Both ships wintered at St. Mary's Island in James Bay arriving October 21st, presumably having run back from the straits on account of ice. In 1901, the H.B.C. "Pelican" came on the scene, replacing the "Erik" on the Labrador - York Factory and Churchill route.

The company establishments on the Labrador coast date back to the early years of the last century. In 1860 when Donald A. Smith (Lord Strathcona) was supervising that part of the country, a steam auxiliary was constructed in England for work on the coast as well as in Ungava. This ship was in commission for about 30 years when she was sold. But four years ago she was wrecked off the coast of Newfoundland.

She was noted chiefly for her strength of construction, being close-timbered and with double planking of teak and greenheart. In her bows there were eight feet of solid teak. As an ice bumper she was the finest. Sir George Grey, who wrote "shocked" against every obstacle that came his way - barring bergs. I mention this ship more particularly on account of its association with Lord Strathcona. He made many trips from England to the Labrador coast on her. Even this ship must have been too slow for his active mind and temperament, for he was only happy, when every stitch of canvas was crowded on. She carried studding-sails, and when Lord Strathcona was a passenger - as the stories go - there was no aid lost no matter how gentle a zephyr might have been blowing. Extract from article by H. M. S. Cotter in "The Beaver."

General U. S. Grant was of Scotch ancestry, but all his family had been Americans in all its branches for eight generations.

The Shah of Persia possesses an armchair made of solid gold, inlaid with precious stones.

Torpedo Menaces

French Village

German Infernal Machine Still Embedded Deeply In Soil

An infernal machine, in France, the village of Villeneuve-Havay, in France. A message from Mons states that it has been impossible up to the present to release the torpedo of 100 kilos which the Germans launched at Villeneuve-Havay, and which, without exploding, became embedded in the soil to a depth of fifteen metres, it is intended to make another attempt this time with an electrical apparatus, which will allow the workers to carry out the operation at a distance. If this does not succeed the torpedo is to be encased in a thick layer of concrete in order to safeguard against the possibility of a catastrophe, as, if the torpedo exploded, it would destroy the whole village.

Playing the Game

British Can Be Depended On For Fairness

"I like the British," says Admiral Sims, "because you can see they will play the game."

Let us cite a little cricket incident. In the recent match Australia v. England, the visitors appealed for a catch-out at the wicket, the question being whether the ball had touched the bat in passing. The umpire decided "not out." Evans, the batsman, ground the next ball on his wicket, "a suspicious stroke," the newspapers say.

The inference is that he knew he had been out on the previous ball, and preferred not to go on - not to benefit from an erroneous decision by the umpire. There is something in that, like that, and in men, who can play it that way. - From the Toronto Star.

The Rocky Mountains of Central America form an absolute barrier to the trade winds which blow over the Gulf of Mexico.

Prince is a Busy Man

Prince of Wales Leads a Busy Life Even in England.

"A man's house - the home of a man's man," is the description of York House, the Prince of Wales' official residence, in a new biography of the Prince, by Miss G. Ivey Sanderson, which was published on the Prince's 27th birthday.

The rooms in which the Prince occupies are the same as those in which his father and mother, as Duke and Duchess of York, lived for some time during his childhood.

The two beautiful, but quietly furnished, receptions rooms adjoining the simple "dining room" on the ground floor are now devoted almost entirely to his secretariat. The plain square entrance hall contains some interesting trophies of his active service, including the bass drum and two side-drums of his regiment and two bugles used by the Grenadier Guards in France.

Some fine old English tapestries relieve the bareness of the wide, paneled staircase.

The Prince's five apartments overlooking Cleveland Row, are extremely modest and business-like and consist of two lofty formal reception rooms and his own small sitting room. The latter is comfortably, but simply, furnished in old mahogany, of Chippendale design. A restful green is the dominating color of the carpet, upholstery and curtains. A massive desk, usually covered with papers, proclaims it to be the workroom of a very busy man.

It is characteristic of the Prince that he sleeps in the little dressing room of his spacious bedroom.

Like his grandfather, King Edward, his grandfather, King Edward, is said to be a moderate reader. He dislikes novels and biographies and reads nothing with a pronounced preference for a pipe.

Above all, he is a young athlete, a real sportsman, and regulates his life, as far as possible, as one always in training.

His time when in London is fully occupied.

When a Siberian bride enters her husband's house for the first time she must be prepared to show her skill in cooking. She is expected to give a dinner prepared with her own hands as a test of her education in the culinary art.

Rust, grasshoppers, hail, drought and rain are ever-present causes of fluctuations in the demand for harvest help, and many transient harvest laborers secure a surprisingly large

Ever Present Problem Of Dealing With Farm Help In The Western Provinces

The problem of farm help, which year after year in connection with the cultivation and harvesting of Western Canadian咧ing crops, is the cause of such vital importance to the farmers, that it formed the basis of an interesting discussion at the Second Annual Conference of Western representatives of the Employment Service of Canada held this spring at Regina. It was attended by representatives of the four western provinces, Director Bryce Stewart, Ottawa, and delegates from the Eastern Farmers of Alberta, Saskatchewan and Manitoba.

Agriculture is a highly seasonal industry divided into two work periods of April and May, and the second period August, September and part of October. These two seasons are by no means well divided and the dates of commencing or closing of each season vary considerably.

The demand for men in either season, and especially in the harvest season, fluctuates widely, giving to the harvest labor operations a distinctly spotted character.

Weather conditions are probably the greatest factor in causing fluctuations in the demand for men. Hot, dry weather, causing grain to ripen quickly, will create a frantic demand for a large number of men, whereas a spell of cool, wet weather will result in hundreds of farmers refusing to accept men directed to their farms.

Varying degrees of weather over comparatively small areas will cause harvest in the various areas, which should be done in succession, being all done at the same time. Harvest operations under even normal conditions never commence on the same date two years in succession. All fields, even in the same area, are not sown on the same date in the spring, thereby causing a difference in the date of ripening.

Rust, grasshoppers, hail, drought and rain are ever-present causes of fluctuations in the demand for harvest help, and many transient harvest laborers secure a surprisingly large

number of jobs during the short seasons.

Added to the above uncontrollable causes of fluctuation must be considered the desire of farmers to complete harvest operations as early as possible. The fact that practically all the farmer's earnings are standing in his fields, the desire to complete the summer work as early as possible, and the fear of unfavorable fall weather, all tend to create a big demand for a few weeks, which demand then tapers off. Harvest laborers too frequently wait in the cities for the larger wages paid during the peak load and then rush back east for inside jobs before the coming winter.

That the farmers and the unemployed both appreciate and realize the co-operation of the Employment Service was brought out at the Conference by the farmer delegates who, in further this co-operation, presented recommendations dealing with the following points:

The abolition of private labor bureaus; standardization of wages in different provinces; one standard of wages for five months commencing April 1st, and for eight months commencing April 1st; one standard for three months commencing September 1st.

A periodical survey to estimate labor requirements for any period; farmers' associations should be used for this purpose. Labor bureaus should make every effort to add labor supply to meet the requirements of seasonal employment within the provinces, by making convenient the transfer of labor from agriculture to winter industries and vice-versa.

In adopting a standard of wages, due consideration should be given to the experience of the applicant. It was suggested that \$40 to \$50 would be fair for the first five months and \$50 to \$60 for the eight months season. Rate of harvesting season to be adjusted at such time.

After discussion, it was agreed that farmers' organizations urge their membership to a more general use of the Employment Service, where offices are established, pointing out the evils of picking men help indiscriminately, obtainable from it from various sources at varying wages; and agreed that the Employment Service in co-operation with the various farmers' organizations put on a campaign urging farmers to engage help early as an "insurance" against loss through labor shortage.

Good Neighbors

Growth of Friendly Feeling Between Canada and U.S.

It is thought likely that by the end of the year Washington will have a minister from Canada numbered among the other envoys. The United States, in turn, will send a minister to Ottawa.

There were never two countries living side by side in such perfect peace, says the Buffalo Express. No armed forces need patrol the border between them. There is not a bat-tle-ship on the great lakes. For more than 100 years there has not been a flicker of trouble. In normal times, the trade between the United States and Canada is enormous, and even with the present rate of exchange, which is most unfavorable to our neighbors, there continues to be much commercial activity. There should be more direct relationship between the two lands, and it is to be hoped that before the new year it will have been accomplished.

The Same Thing

The drummer looked across the aisle. The seat beside the pretty girl was vacant. Going over, he said, "Is this seat engaged?"

"No," said the girl, "but I am; so if you don't see any good."

Of a thousand persons, only one reaches the age of one hundred years, while only one couple in eleven thousand live to celebrate their diamond wedding.

Spend your money at home, thereby helping your own town and local merchants.

Sport A-Plenty on Vancouver Island all the Time

When Captain Vancouver discovered Vancouver Island 128 years ago, he declared that it required only to be nourished by the industry of man, with villages, mansions and cottages, to be "the most finely country in the world."

Man has ably supplemented Nature since then, and it is not surprising that he has crossed the United States to California, return east through Canada to enjoy the beauties of Victoria and Vancouver and the Canadian Pacific Rockies.

Owing to the mild climate in winter, Vancouver Island is as great a playground for lovers of sports as it is in summer. There are splendid roads and famous drives for the motorist, water sports of all kinds are

popular, and golf, tennis and cricket have thousands of devotees.

Victoria and Vancouver girls are clever with the oars, particularly the scullers of the Victoria Rowing Club who have won laurels even in competition with crews of the sterns.

In the picture they are (left to right), Miss Elsie Cooper, Miss C. Champ, Miss R. Matheson, Miss Florence Cooper and Miss Leonie Launde.

Vancouver Island is a great resort for fishermen who lure their fish from both fresh and salt water. One of the gamest of these is the tyee salmon, so call by the Indians, the name meaning king fish. Victoria has many expert fishermen,

among them W. R. Fletcher, a conductor on the Esquimalt and Nanaimo Railway, who recently caught two tyee salmon weighing 40 and 45 pounds respectively.

"When one of these boys hits the spoon," says Fletcher, "he'll keep you 'stepping some' for a while. He'll tow you around, dive for the bottom of the sea, then come up and jump five feet in the air. Sometimes he'll fight for nearly an hour before you land him in the boat."

World Happenings Briefly Told

The Japanese cabinet has decided to accept participation in the proposed conference on Far Eastern problems, the Associated Press is informed.

The Saskatchewan Department of Agriculture has purchased a number of cattle from Ontario, through A. J. Clarke, purchaser for the livestock branch.

Power of the Dominion Government to enforce conscription without first consulting the people, was objected to by the Hull Trades and Labor Council.

Two animals of the renowned Avondale herd of Holstein Friesians, owned by A. C. Hardy, Brockville, have been purchased by the Japanese Government for its experimental farm system.

From Halifax to Vancouver in a 1500 foot boat is the objective of Capt. J. T. Day, Harry Ingalls and H. J. Morrison, who have left on the long trip. They will follow the coast line and go through the Panama Canal, then on to move a small salt, oil, and coal.

The French National Union of Combatants has approved a program providing for cards for veterans of the Allied nations, entitling the former soldiers to all the advantages in an Allied country that they enjoy in their own. The organization has a membership of 800,000.

Germany lost 1,723,368 men killed and 4,246,874 wounded from 1914 to 1918, according to a revised compilation of the German casualties during the war. In addition, 200,000 men are still reported missing. The losses in the navy, which are included in the casualties given above, were 34,257 men killed and 31,085 wounded.

THIS WOMAN'S MISERY

Ended by Lydia E. Pinkham's Vegetable Compound. Remarkable Recovery of Mrs. Church.

Smiths Falls, Ont.—"I suffered with falling of my organs, pains around my head and in bones and down my legs, numbness in feet and a terrible sinking feeling. I felt that I could not live and would fix my house in order over night so there would be no trouble. I had a doctor and he gave me a prescription for a Vegetable Compound. I took six bottles and felt lot better. I will always recommend the Vegetable Compound, and you can use them as a testimonial."—Mrs. J. O. CHURCH, Box 846, Smiths Falls, Ont.

The use of Lydia E. Pinkham's Vegetable Compound made the woman and her herbs, is unparalleled. It may be used with perfect confidence by women who suffer from nervous prostration, depression, irregular menstruation, ulceration, irregular periods, pain, backache, bearing-down feeling, flatulence, indigestion and dizziness. Lydia E. Pinkham's Vegetable Compound is the standard remedy for female ills.

If there are any complications about which you need advice write in confidence to Lydia E. Pinkham Medicine Co., Lynn, Mass.

Wheat Sixty-Six

Pounds to the Bushel

Exhibitors at Edmonton Fair Had Some Good Grain

Among the exhibitors of grain at the Edmonton fair, was Mr. Price Sheppard whose entry of wheat weighed 66 pounds to the bushel. J. Strassburger, of Stony Plain, was also a prominent exhibitor in grains and vegetables. Of special interest was the exhibit of Alta Swedish red clover above which was an inscription stating that this clover which was first sown in 1915 had stood the test of six years without a single failure. This information should be of great value to the farmer as it is generally believed that red clover is a better forager in Alberta; consequently, farmers do not sow this clover which is valuable not only for feed and seed, but as fertilizer. Wm. Chalmers, of Edmonton south, was the exhibitor, and he is enthusiastic in his praise of its qualities, and adaptability to the country.

Is Your Stomach Sour?

Do You Belch Gas?

If you have sour risings from the stomach, feel bloated and uncomfortable, you should take Cuticura Soap Shampoo in sweetened water. Relief will come quick. Nervilene dispels the gas, strengthens the stomach, makes you feel fit in a few minutes. As a general house remedy for many of the ills that constantly turn up, nothing is more useful in every home than a 35 cent bottle of good old "Nervilene."

Your Summer Vacation

Special Summer Tourist Fares To The Pacific Coast.

Special Summer Tourist tickets to Vancouver, Victoria, Seattle and other Pacific Coast points are now on sale daily by the Canadian Pacific Railway. These tickets will bear a final return limit until October 31st, and permit stopovers en route, which gives travelers an opportunity of visiting some of the beautiful resorts in the Rockies, such as Banff, Lake Louise, and Jasper, where the Company maintains splendid resort hotels. These tickets are optional with the main line or Arrows Lakes route in one or both directions, and are available for those who prefer side trip journeys.

In addition to the "Trans-Canada Limited" exclusive sleeping car train, a choice of two other daily trains is offered, and as all are equipped with open-top observation cars, through the mountains an excellent view of the magnificent scenery may be had.

Any Agent of the Canadian Pacific will be pleased to give further particulars and make the necessary arrangements for the trip.

Hides Do Not Figure

A provincial manufacturer assures us that the price of hides is not a factor in the cost of shoes. A prominent labor man declares that the labor cost in a pair of shoes represents only about a dollar. One must conclude that the price of an expensive pair of shoes must be caused by something like spontaneous generation.—Hamilton Herald.

For Frost Bites and Chilblains—Chilblains come from undue exposure to cold and frost-bite from the ice. A well known and effective treatment of either an excellent preparation is Dr. Thomas' Electric Oil, as it counteracts the inflammation and relieves the pain. The action of the oil is prompt and its application is extremely simple.

Work Doesn't Kill.

How much trustworthy evidence is there to show that the hurry and the overcrowding of modern civilization push men into premature graves? London, New York and Chicago have each a death rate very near the lowest ever known; octogenarians are more and more common, and active business men at sixty-five are so numerous that they attract no attention.—Youth's Companion.

Wonderful powers of memorizing facts are possessed by a Yorkshire laborer, who has mentally stored away 31,000 lines of general information.

A man's idea of a good memory is one that enables him to forget everything prejudicial to his own interests.

Minard's Liniment for sale everywhere.

Cuticura Soap Shampoo Best For Children

If you wish them to have thick, healthy hair brush their hair shampoo regularly with Cuticura Ointment and hot water. Before shampooing touch any spots of dandruff and itching. A good healthy scalp usually means good hair.

500g. Ointment 25¢ per box. Salve 25¢. Sold in druggists, 345 St. Paul St., W. Montreal. Cuticura Soap shampoos without soap.

A Big Butter Order

Butter from the Edmonton district is in demand, and one of the largest orders ever recorded there was placed recently when Paul de Wolff of Sardis, B.C., asked Edmonton dealers to supply him with 1,000,000 pounds destined for the New York market. A million pounds' order is a big one to fill, but agents at half a dozen or more other central Alberta points are also being asked to assist in filling the order.

A WOMAN'S RIGHT TO GOOD HEALTH

TO GOOD HEALTH

Most troubles afflicting Women Are Due to Poor Blood.

To every woman belongs the right to enjoy a healthy active life; yet nine out of ten suffer from some form of bloodlessness.

One sees on every side pale, thin cheeks, eyes and skin, hair, signs of

signs of headaches, weak backs, aching limbs and uncertain health.

All weak women should win the right to be well by referring their trouble to Dr. William's Pink Pills.

ATLAS LUMBER Co'y. BUILD IT NOW

Reconstruct the Old Home For Longer Usefulness

Reconstruction begins at home. If the old house isn't all you desire, and you can't build a new one, a little of the right kind of repairing and renewing will readily restore it to present day standards.

Perhaps it's a new porch, a summer kitchen, a side entrance, a new roof, extra rooms in the attic or a renewing of old, cracked walls and ceilings that is needed.

The right kind of lumber used in the reconstruction of your home will be all the material you will require including that knotless and crackless manufactured lumber BEAVER Board, for better walls and ceilings.

Suppose you ask us about it?

Crossfield Garage

LOCAL AND GENERAL

Our old friend "Dr. Bill" Stock, who was in the boot and shoe repairing business in Crossfield, in 1914, gave us a call as he passed through on his way to Calgary, on Monday last. He states that he is still in the same line at Olds, any of his old patrons who care to send any work are assured of prompt attention, he will pay express one way.

Miss. E. M. Smart was a visitor to Carstairs for a few days during the past week.

Mr. and Mrs. J. F. Percival and Mr. and Mrs. C. M. S. Thomas motored to Calgary on Wednesday.

Mr. S. Willis was a visitor to Calgary on Tuesday last.

Miss Helen Brown, of Golden, B.C. is a visitor at the home of Mr. and Mrs. G. Glover.

Miss S. Sherrard, of Col. Belcher Hospital, Calgary, and Mrs. T. B. Robbie, of Regina, Sask., are guests of Mr. and Mrs. R. Arnott.

Mr. and Mrs. C. C. Smart, Miss E. M. Smart, Miss E. Grange and Mr. Jas. Smart jun'r., motored to Banff on Monday last, returning Tuesday evening.

Mr. and Mrs. Bradshaw and daughter Helen, who have been visiting at the home of Mr. and Mrs. N. Vandelin for the past two weeks, returned to their home in New Westminster, B. C. on Monday last.

Mr. and Mrs. R. Jessiman, of Aberdeenshire, Scotland, paid a surprise visit to the home of Mr. and Mrs. A. Jessiman during the past week, leaving Tuesday last for Imperial, Sask., where they intend to stay for a time.

Miss M. Ontkes returned home on Tuesday last, after spending several weeks attending the University in Edmonton, also spending a few days with friends in Red Deer.

Mr. and Mrs. E. Borden motored to Calgary on Tuesday last.

Mr. A. V. Turner, of Edmonton, will take up the duties of Principal at the local school, after the holidays, whilst Miss M. Malott, of Chilliwack, B. C. and Miss Machon of Calgary, will take the Intermediate and Primary classes.

BIRTH

To Mr. and Mrs. A. Bailey, on Monday, August 8th, at Crossfield, a daughter.

Correspondence

R. R. No 1,
Crossfield, Alta.
August 3rd, 1921.

Dear Mr. Editor:

Owing to the low prices we are getting for grain and stock and the comparatively high prices we have to pay for machinery, groceries, etc., most of us farmers are going to find it hard to make both ends meet this year, and we must try to get the last possible cent for what the drought has left us.

In the same west, deal of grain has been sold to the local elevators by the wagon load at a smaller price than could have been obtained had it been sold by the car load.

Now if we had a central agent in Crossfield, to whom we could take our storage tickets, he could hold them till he had sufficient bushels of one grade to make a car load and then sell either to the elevator or to outside firms.

It would I think be necessary to give the agent a free hand to sell whenever and wherever he thought advisable.

I should like other farmers to propose ways of getting some such scheme as this.

Yours truly
G. TREVERTON JONES.
